22 July 1987

NOTE FOR: DCI

Attached is the agenda and some background regarding the National Drug Policy Board meeting tomorrow. The personalized invitation from Ed Meese is standard fare. The agendas for these meetings always come over with such a letter from the Attorney General. The only thing that makes this invitation unusual is the fact that the President will be attending. The background material was prepared by the National Intelligence Officer for Narcotics under the assumption that Dick Kerr would be representing you.
